The founder of ROBLOX is David Baszucki as a 13-year-old boy in 1996. He was a freshman at Palo Alto High School in Palo Alto, California and had been working on a computer program that was similar to ROBLOX called "Pyxis". He worked with his friend Owen Hill to create new ideas for the program until it became possible for others to play the game without downloading any additional software.

On January 12th 2019 RoBoX Studios uploaded a video of them waving in front of cameras. The description of the video said "Moped Wave" and there was a picture of the thumbnail saying "Moped Wave". Fans thought it was an advertisement for one of potential future projects. A few days later they uploaded a second video called "RoBoX Studios". This time they were counting to 12 in front of cameras with different colored backgrounds. On January 22nd 2019, after over a month, they have uploaded another video titled "RōBux". The description teased about a possible RōBux 2, which is a mini game in ROBLOX which is cash oriented. On February 18th 2019, they have posted another video titled "RSK", which is short for ROBLOX Studio Kit. This video showed three new projects that were planned to be released with tips on how to create them. On February 19th 2019, they had uploaded yet another video titled "ROBUX". This was a video where it showed a projected page about ROBLOX and what people play. The description read "ROBLOX has more than 200 million users who love playing Roblox games! Which is why next week we will be releasing RSK - the new Roblox Studio kit! It will feature tons of cool features and tools you can use to make awesome 3d games. Keep an eye out for RSK next week. The post was then deleted, then the video was deleted, likely to stop rumors and speculation of a new studio kit.[48] On February 26th 2019, they released RSK to the public under build mode.[49]

Rated 4 out of 5 by Anonymous from Good for kids My son loves this game! It helps him study for his tests and play with his friends. His favorite part is that the creators have set everything up so that parents can control what their children see online.
